- word cloud?
- ↳ Design Is...
  - ↳ Philosophy
  - ↳ Bio Durb
  - ↳ Designers who inspire me

"A designer is  
an emerging  
synthesis..."

## Philosophy

- Typography is king
- Design gives form to an idea
- Design makes sense of disorder
- Design is an attitude not a profession
- Design is an agent of change
- Design is to design a design to produce a design

## React

### Components:

- ~~Gallery~~ Portfolio
- Project Preview
- Project
- Menu (Bar/Aside)

### Portfolio

#### Gallery: (Renders Project Previews)

- Landing page main content
- Contains Project Previews
- Sorted by date most recent
- Categorized by  $\Rightarrow$  (logo identity, webui, other)
- Displays category title

#### Project: (Renders Behance API Modules)

- Loads project data, images, text, title
- H1 is project title  $\rightarrow$  within Header
- H2 is project Description
- Article tag contains all content
- Article Footer shows related projects by behance fields

## GraphQL Resources to wrap Behance API

### Project

- id (Int)
- name (String)
- created\_on (Int)
- modified\_on (Int)
- url (String)
- Obj • categories: fields [String]
- Obj • covers { size (Str) • (Str) }
- description (String)

### Content (from my behance profile)

- id (String) (my personal user id)
- first\_name (String)
- last\_name (String)
- Obj • social\_links { url (String), service\_name (Str) }
- Obj • sections { custom\_key: value }

### Modules

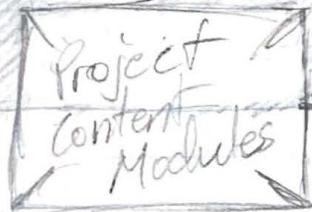

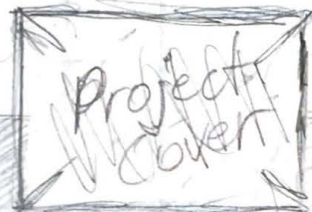

- project\_id (Int)
- type (String)
- type = Image
  - sizes = size (string): (Str)
- type = Text
  - text (String) (as formatted type)
  - ★ text\_plain (String)
